

Becoming Luminous: Protocols for Evolution

with

John W. DeLuca, Ph.D.

Wisdom holders of many spiritual traditions speak of an imminent global shift of massive proportions and significance. In times of such great change and reorganization, old ways, beliefs, and attempts to maintain the status quo will no longer serve our highest good. The ease of our transition will depend on the re-alignment of our hearts.

- What is Homo-Luminous or the light-body being that so many spiritual traditions speak of?
- How does one achieve such a state?
- How do you increase your vibrational frequency?
- How do you become “Who you really are?”

Join us for this one day experiential workshop as we explore several paths to becoming “luminous.” Learn to enhance your vibrational alignment with Source and how to become “Who you really are.”
